# Welcome To Connekt

Many commercial foodservice applications require protective barriers for product, food, staff, and their customers. Our lines of sneeze guards/food shields and display case hardware include glass connectors and kits that offer the ability to create your own hygienic barrier solution that meets your custom layout and vision.

## Connekt Features:

- Precision-machined components from aircraft grade aluminum
- Guaranteed food-safe, NSF-certified hardware
- Our elegant, unobstructive, patented system is trusted by leading brands worldwide
- Everything but the glass - build a custom food shield using your own acrylic or tempered glass (Don't worry, we give you glass drawings, guidelines and specifications)
- Bulk pricing with easy online purchasing and fast shipping
- Assembled, packaged, and shipped in the United States

## About Connekt Post

Connekt Post provides out-of-the-box, premium, durable posts and components that are ready to install in order to build a food protection system with your tempered glass panels and countertop surface.
